### *INDEPENDENT AUDITOR'S REPORT*

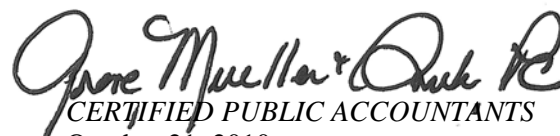

Board of Trustees  
Oregon School Boards Association  
Property and Casualty Coverage for Education  
Salem, Oregon

We have audited the accompanying statements of financial position of Oregon School Boards Association Property and Casualty Coverage for Education (a component unit of Oregon School Boards Association), as of June 30, 2010 and 2009, and the related statements of activities and cash flows for the years then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Oregon School Boards Association Property and Casualty Coverage for Education as of June 30, 2010 and 2009, and the changes in its net assets and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audit was performed for the purpose of forming an opinion on the financial statements of Oregon School Boards Association as a whole. The three-year claims development information on page 15 is presented for purposes of additional analysis and are not required parts of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting another records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

***SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES***

The Oregon School Boards Association Property and Casualty Coverage for Education Trust (“Trust”) is a component unit of Oregon School Boards Association (OSBA). The Trust was formed effective July 1, 2006 and offers property and casualty coverage to school districts. The Trustees of OSBA Property and Casualty Coverage for Education Trust are appointed by the Board of Directors of Oregon School Boards Association. The accompanying financial statements include all financial activities of the Trust. The Trust purchases various services from OSBA and pays a fee for administration. In addition, the Trust contracts with Special Districts Association of Oregon (SDAO) to provide claims processing, accounting, underwriting and loss control services for the Trust.

*Trust Events*

The Trust entered into an agreement to merge the remaining account balances of Oregon School Boards Association’s Property and Casualty Trust as of April 26, 2010 with those of the Trust.

*Restricted Surplus*

The Trust is obligated to return surplus of the Trust to members once the surplus reaches \$9 million. The Trust is required to annually evaluate the amount of the surplus to its members. State law requires the Trust to maintain a surplus equal to 25% of net contributions.

*Basis of Accounting*

Financial transactions are recorded on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred. The Trust has applied all applicable Governmental Accounting Standards Board (GASB) pronouncements and all applicable Financial Accounting Standards Board (FASB) statements and interpretations, Accounting Principles Board (APB) opinions and Accounting Research Bulletins (ARB) issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements.

*Cash and Cash Equivalents*

For purposes of the statements of financial position and cash flows, the Trust considers all demand deposits and their investment in the State of Oregon Local Government Investment Pool as cash equivalents.

*Investments*

Investments are stated at fair value. Fair value is the amount at which an investment could be exchanged between willing parties, other than in a forced or liquidation sale. If a quoted market price is available for an investment that is used as the fair value. Accordingly, unrealized gains or losses are recorded for the increase or decrease in the fair value of assets from the beginning of the year to the end of the year.

Oregon statutes authorize the Trust to invest primarily in general obligations of the U.S. Government and its agencies, certain bonded obligations of Oregon municipalities, bank repurchase agreements, certain commercial paper, and the Oregon State Treasurer’s Local Government Investment Pool, among others.

***SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)***

*Accounts Receivable*

Accounts receivable represent amounts of reinsurance due on claims, contributions due and amounts due on services provided. Due to the nature of the receivables and the likelihood of collection, no provision for uncollectible accounts has been made.

*Premiums*

Premiums are taken into income as earned over the term of related insurance policies. Policies are generally written for the annual period from July 1 through June 30. As of June 30, 2010 and 2009, the Trust held unearned premiums in the amount of \$572,477 and \$561,513, respectively.

*Claims and Claims Adjustment Expenses*

Unpaid losses and loss adjustments expenses at June 30, 2010 have been estimated based upon an actuarial study of the program prepared by the Trust's consulting actuary. The Trust establishes claims liabilities based on estimates of the ultimate cost of claims (including future claims adjustment expenses) that have been reported but not settled, and claims that have been incurred but not reported. The length of time for which such costs must be estimated varies depending on the coverage involved. Estimated salvage and subrogation and reinsurance recoverable on unpaid claims are deducted from the liability for unpaid claims. Because actual claims costs depend on several complex factors, the process used in computing claims liabilities does not necessarily result in an exact amount. Claims liabilities are recomputed periodically using a variety of techniques to produce current estimates that reflect recent settlements, claims frequency, and other economic and social factors. A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation because reliance is placed on both the actual historical data that reflect past inflation and other on other factors that are considered to be appropriate modifiers of past experience. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

*Income Taxes*

The Trust is tax exempt under Internal Revenue Code Section 115.

***SELF-INSURANCE LIMITS***

The Trust has established a \$600,000 general liability and a \$250,000 property self-insurance limit. The self-insurance pool provides for the first \$600,000 of each general liability claim and the first \$250,000 of property, automobile, errors and omissions, and other miscellaneous coverages.

**CASH AND CASH EQUIVALENTS**

The Trust has the following cash and cash equivalents:

	<u>2010</u>	<u>2009</u>
<b>Cash</b>		
Demand deposits with financial institutions	\$ 266,392	\$ 1,589,063
<b>Investments</b>		
Local Government Investment Pool	285,204	5,742,171
	<u>\$ 551,596</u>	<u>\$ 7,331,234</u>
<i>Total Cash and Cash Equivalents</i>		

*Deposits*

At June 30, 2010, the Trust's deposits with various financial institutions had a bank value of \$646,602.

*Custodial Credit Risk - Deposits*

This is the risk that in the event of a bank failure, the Trust's deposits may not be returned. The Federal Depository Insurance Corporation (FDIC) provides insurance for the Trust's deposits with financial institutions up to \$250,000 each for the aggregate of all non-interest bearing accounts and the aggregate of all interest bearing accounts at each institution. Deposits not covered, if any, are covered by the Public Funds Collateralization Program (PFCP) of the State of Oregon. The PFCP is a shared liability structure for participating bank depositories, better protecting public funds though still not guaranteeing that all funds are 100% protected. Barring any exceptions, a bank depository is required to pledge collateral valued at least 10% of their quarter-end public fund deposits if they are well capitalized, 25% of their quarter-end public fund deposits if they are adequately capitalized, or 110% of their quarter-end public fund deposits if they are undercapitalized or assigned to pledge 110% by the Office of the State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public funds bank depositories is available to repay deposits of public funds of government entities.

*Investments*

The State Treasurer of the State of Oregon maintains the Oregon Short-term Fund, of which the Local Government Investment Pool is part. Participation by local governments is voluntary. The State of Oregon investment policies are governed by statute and the Oregon Investment Council. In accordance with Oregon Statutes, the investment funds are invested as a prudent investor would do, exercising reasonable care, skill and caution. The Oregon Short-term Fund is the LGIP for local governments and was established by the State Treasurer. It was created to meet the financial and administrative responsibilities of federal arbitrage regulations. The investments are regulated by the Oregon Short-term Fund Board and approved by the Oregon Investment Council (ORS 294.805 to 294.895). At June 30, 2010, the fair value of the position in the Oregon State Treasurer's Short-term Investment Pool was approximately equal to the value of the pool shares. The investment in the Oregon Short-term Fund is not subject to risk evaluation. The LGIP is not rated for credit quality. Separate financial statements for the Oregon Short-term

*Investments (Continued)*

Fund are available from the Oregon State Treasurer.

*Interest Rate Risk*

In accordance with its investment policy, the Trust manages its exposure to declines in fair value of its investments by limiting its investments to the LGIP.

*Custodial Risk - Investments*

For an investment, this is the risk that, in the event of a failure of the counterparty, the Trust will not be able to recover the value of its investments or collateralized securities that are in the possession of an outside party. The Trust's investment policy limits the types of investments that may be held and does not allow securities to be held by the counterparty.

The LGIP is administered by the Oregon State Treasury with the advice of other state agencies and is not registered with the U.S. Securities and Exchange Commission. The LGIP is an open-ended no-load diversified portfolio offered to any agency, political subdivision, or public corporation of the state that by law is made the custodian of, or has control of any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon Legislature established the Oregon Short Term Fund Board, which has established diversification percentages and specifies the types and maturities of the investments. The purpose of the Board is to advise the Oregon State Treasury in the management and investment of the LGIP. These investments within the LGIP must be invested and managed as a prudent investor would, exercising reasonable care, skill and caution. Professional standards indicate that the investments in external investment pools are not subject to custodial risk because they are not evidenced by securities that exist in physical or book entry form. Nevertheless, management does not believe that there is any substantial custodial risk related to investments in the LGIP.

**THREE YEAR CLAIMS DEVELOPMENT INFORMATION**

---

The table below illustrates how the Trust's earned revenues compared to related costs of loss and other expenses assumed by the Trust as of the end of each of the last two years. The rows of the table are defined as follows: (1) This line shows the total of each fiscal year's earned contribution revenues. (2) This line shows each fiscal year's other operating costs of the Trust including overhead and claims expense not allocable to individual claims. (3) This line shows the Trust's incurred claims and allocated claims adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event that triggered coverage under the contract occurred (called policy year). (4) This section of two rows shows the cumulative amounts paid as of the end of successive years for each policy year. (5) This section of two rows shows how each policy year's incurred claims increased or decreased as of the end of successive years. This annual re-estimation results from new information received on known claims, reevaluation of existing information on known claims, as well as emergence of new claims not previously known. As data for individual policy years mature, the correlation between original estimates and re-estimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years. The columns of the table show data for successive policy years.
