A TRUST BUILT FOR STUDENTS

PACE MEMBERS CAN RECEIVE FREE TRAINING.

In special education classrooms across Oregon, staff oversee students whose emotional and behavioral disabilities pose unique challenges. Staff often report intense physical and emotional conflict between themselves and students, regularly resulting in injuries.

The key to defusing these potentially violent and litigious crises is to provide staff with intensive, specific training.

PACE is now offering special education behavior management training as a PACE member benefit.

The Nonviolent Crisis Intervention (NCI) training program, developed by the Crisis Prevention Institute (CPI), is embraced worldwide as a highly effective behavior management system for organizations committed to providing quality care and services in a respectful and safe environment.

This interactive training program provides special education staff with an effective framework for decision-making and problem-solving to prevent, de-escalate and safely respond to disruptive and/or assaultive behavior.

The trainings combine visual, auditory and experiential methods to reinforce understanding and increase learning retention.
